[WWW.CASTLEDENTALCARE.ORG.UK](http://WWW.CASTLEDENTALCARE.ORG.UK)

*Congratulations to both Dr Aneesha Moosa and Dr Anika Pearson, both gave birth to beautiful baby girls in August and September this year. We wish them a wonderful maternity leave.*

*Congratulations*

**Rachel passing her Patient care Co-ordinator Course receiving excellent scores in all her assignments.**

**England Community Lions Women win first game of Serbian trip**

Also a big well done to Rachel's daughter Victoria who played in the ladies England community lions, they won both matches against Serbia 64-0 and 67-7

## Staff News

We would like to let you all know that after over 35 years' service Colette Jinks (Practice Manager) will be leaving the Practice on 9th November 2023. In this time, Colette has worked hard to ensure that the Practice stayed ahead of the game and has been a key member of the management team. We are sure that you stand with us to thank Colette for her dedication and loyalty to the Practice and wish her all the very best for the future and her next adventure.

# Improving access and reducing waiting times.

Dental care is an important aspect of overall health and we understand it can be frustrating when it is not readily available. We are pleased to inform you that we have had four new dentists Kunal Agarwal, Nayyar Sultana, Nikita Sonvane and Asad Khan another dental therapist Riana Patel join our team. This means we can see more patients and complete your treatment sooner.

1. **Private Orthodontic Treatment;** consultations can be booked with Dr Ruska Pavlova to discuss the variety of treatment options available for straightening teeth.
2. **Sedation:** we offer IV sedation on the NHS for adult patients who are nervous about dental treatment. A consultation can be booked with Dr Emma Castellino to assess your suitability for sedation.
3. **Implant** consultations can be booked with Dr Adil Murtaza to discuss the options of an implant for missing teeth or as an alternative to removable dentures.
4. **Tooth Whitening:** We offer Enlighten Tooth Whitening. No messy impressions needed, your teeth will be scanned instead. The whitening process is completed in the comfort of your own home and the results are guaranteed.

## The Role of a Dental Therapist

### Dental Therapists can:

Examine, screen and diagnose oral conditions. Prescribe, take and interpret radiographs.

Give local anaesthetic. Extract baby teeth, place pre-formed silver crowns on baby teeth and carry out specific root treatments on baby teeth. They can also provide personalised oral hygiene advice, plan and undertake gum treatment and provide maintenance and provide care of implants and surrounding tissues.

Take impressions and carry out tooth whitening treatment.

Provide preventative treatments including fissure sealants and fluoride varnish.

Fill, repair and improve the appearance of adult and baby teeth.

Dental Therapists train alongside dental students, learning the same skills.

Dental Therapists are registered with the GDC and can carry out most treatments without the need to see a dentist first. They can refer to other members of the dental team or other healthcare professionals.
